

Chiang Mai Cardiology Conference (CMCC 22)  
 Revolution in Cardiology 2020  
 10-13 September 2020

Thursday 10 September 2020

10.30-12.00	<b>Revolution in CV Prevention</b> Mendelian Randomization : A Guide for Clinician Big-Data and Real-World Study Inflammation and CVD : A New Treatment Target ?
12.00-12.15	<b>Transfer time</b>
12.15-13.15	<b>LUNCH SYMPOSIUM</b>
13.15-13.30	<b>Transfer time</b>
13.30-14.30	<b>Revolution in Hypertension</b> Thai In-Hospital Hypertension Screening Study Bedtime Medication Personal Blood Pressure Monitoring Device
	<b>Revolution in non-traditional CV risk factors</b> Effects of PM2.5 on cardiovascular system Effects of COVID-19 on cardiovascular system Effects of psychosocial stress on cardiovascular system
14.30-15.00	<b>COFFEE BREAK</b>
15.00-16.00	<b>Concern issues in CV risk management</b> Metformin, revisited benefit and risk? Smoking: e-cigarette, dawn or down? Possible harm of dietary supplements
	<b>Check-up program: More tests, less benefits?</b> Biomarkers Non-coronary vascular study Coronary imaging study
16.30-18.00	<b>DINNER SYMPOSIUM</b>

Friday 11 September 2020

07.00-08.00	<b>BREAKFAST SYMPOSIUM</b>
08.30-09.00	<i>Opening ceremony</i>
09.00-10.30	<b>Revolution in acute coronary syndrome management</b> Thai ACS registry: Past Present and Future Thai PCI registry: Quality of care and room for improvement Artificial Intelligence and technology in ACS management
10.30-11.00	<b>COFFEE BREAK</b>
11.00-12.00	<b>Revolution in chronic coronary syndrome management</b> From ORBITA to ISCHEMIA, any place for revascularization? How coronary CTA leverage patient care in CCS? Innovative interventional strategies
	<b>Challenges in acute coronary syndrome</b> Uncertain diagnosis: Role of imaging test Arrhythmia management in ACS Cardiogenic shock in ACS
12.00-12.15	<b>Transfer time</b>
12.15-13.15	<b>LUNCH SYMPOSIUM</b>
13.15-13.30	<b>Transfer time</b>
13.30-14.30	<b>Atherosclerotic disease: Beyond conventional therapy</b> Polyvascular disease: Don't miss it! Genotype Guided Strategy for P2Y12i use MINOCA and INOCA (non-obstructive CAD)
	<b>Heart and Brain: common comorbidities</b> Revolution in acute ischemic stroke therapy ESUS and AF screening, can technology help? When to perform PFO closure in stroke patients?
14.30-15.00	<b>COFFEE BREAK</b>
15.00-16.00	<b>Revolution in Revascularization</b> Revascularization in LV systolic dysfunction Revascularization in left main Revascularization in diabetes
	<b>Difficult issues in coronary artery disease</b> Asymptomatic coronary artery stenosis from CTA ACS management in patients taking OAC Dealing with high bleeding risk patients
16.30-18.00	<b>DINNER SYMPOSIUM</b>

Saturday 12 September 2020

07.00-08.00	<b>BREAKFAST SYMPOSIUM</b>
08.30-09.30	<b>Revolution in AF Management</b> How to prevent AF without antiarrhythmic drugs How to use antiarrhythmic drugs properly Any promising data on interventional procedures?
	<b>Heart failure with co-morbidities: Double jeopardy!</b> Heart failure and Iron deficiency Heart failure and COPD Heart failure and advanced renal disease
09.30-10.00	<b>COFFEE BREAK</b>
10.00-11.00	<b>Acute heart failure: Therapy during hospitalization</b> IV drugs, how to choose? Oral drugs, start/switch/stop? Decision pathway in acute heart failure therapy
	<b>Stroke prevention in uncertain area</b> Post-op AF/AF during critical illness AF in ESRD LAA occlusion, when and how?
11.00-12.00	<b>Revolution in chronic heart failure therapy:</b> Promising drugs in HFrEF Amyloid heart Hypertrophic cardiomyopathy
	<b>Cardiovascular diseases in pregnancy</b> Structural heart, can pregnancy go on? Common consultation (Arrhythmias/HT) Peripartum cardiomyopathy
12.00-12.15	<b>Transfer time</b>
12.15-13.15	<b>LUNCH SYMPOSIUM</b>
13.15-13.30	<b>Transfer time</b>
13.30-14.30	<b>Difficult issues in cardiac consultation</b> Hypertensive emergency Pulmonary hypertension: appropriate investigations Chemotherapy-related cardiomyopathy: what should you advise?
	<b>Do and Don't in VHD Management 2020</b>
14.30-15.00	<b>COFFEE BREAK</b>
15.00-16.00	<b>Challenges in adult congenital heart</b> Case-based approach
	<b>Inter Institution Valve Challenge</b> How would you do it? How I did it!
16.30-18.00	<b>DINNER SYMPOSIUM</b>

Sunday 13 September 2020

07.00-8.00	<b>BREAKFAST SYMPOSIUM</b>
08.30-9.30	<b>The Best Clinical Trials of 2019</b> Prevention / Arrhythmias Heart failure / CAD
09.30-10.00	<b>COFFEE BREAK</b>
10.00-11.00	<b>Complex issue in arrhythmias</b> Approach to premature beat Benign syncope vs. malignant syncope Patients with cardiac implantable electronic devices
11.00-12.00	<b>Highlights From ESC Guidelines 2020</b> NSTEMACS Adult congenital heart disease Sports cardiology
12.00-13.00	<b>LUNCH SYMPOSIUM</b>
